SECTION 1 - Administration and Enforcement

1.1. Title

1.1.1. This Bylaw shall be referred to as “Zoning Bylaw No. 1921, 2024”.

1.2. Purpose

1.2.1. This Bylaw is to provide a clear and efficient system of land use regulations for the orderly, economic, beneficial, equitable and environmentally sensitive use, development, and re-development of the City of Armstrong, having regard for the provisions of the City of Armstrong’s Official Community Plan.

1.3. Application

1.3.1. This Bylaw applies to the entire geographical area of the City of Armstrong, including all water and all uses, land, buildings and other structures therein.

1.4. General Interpretation

1.4.1. Any enactments referred to herein are a reference to an enactment of British Columbia and regulations thereto, as amended, revised, consolidated or replaced from time to time, and any Bylaw referred to herein is a reference to an enactment of the Council of the City of Armstrong, as amended, revised, consolidated or replaced from time to time.

1.4.2. The Schedules attached to this Bylaw form part of this Bylaw.

1.5. Compliance

1.5.1. No land, building or structure shall be used or occupied, and no building or structure or part thereof shall be erected, constructed, reconstructed, moved or structurally altered except in conformity with this Bylaw.

1.5.2. Every use of a lot, building or other structure permitted in each zone must conform to all the regulations of the applicable zone and all other regulations of this Bylaw.

1.5.3. No subdivision may be approved:

(a) except in conformity with this Bylaw; or

(a) so as to cause any existing building or other structure to violate the provisions of this Bylaw.

1.6. Inspection

- 1.6.1. The City Building Inspector, Approving Officer, Public Works Manager, Bylaw Enforcement Officer, or any other employee Council may appoint, by position title, to administer this Bylaw are hereby authorized to enter at all reasonable times, on any property that is subject to regulations under this Bylaw to ascertain if the provisions of this Bylaw are being met, or the regulations are being observed.
- 1.6.2. No person must prevent or obstruct, or attempt to prevent or obstruct, the entry of any authorized official upon the property as authorized under this Bylaw.

1.7. Violations

- 1.7.1. Any person who violates any provisions of this Bylaw or who suffers or permits any act in contravention of this Bylaw, or who neglects to do or refrains from doing any act or thing which is required to be done by any provision of this Bylaw, commits an offence against this Bylaw and is liable to the penalties imposed under this Bylaw.

1.8. Penalties

- 1.8.1. Every person who commits an offence against this Bylaw is liable on summary conviction to a penalty not exceeding Ten Thousand Dollars (\$10,000.00) and the costs of prosecution.
- 1.8.2. Each day a violation of the provisions of this Bylaw exists or is permitted to exist shall constitute a separate offence.

1.9. Applications in Process

- 1.9.1. A completed application for a building permit which is received prior to the effective date of this Bylaw shall be processed in accordance with City of Armstrong Zoning Bylaw No. 1268, 1997, unless the applicant provides a written request that their application be considered under this Bylaw. Such applications shall be approved or rejected within 12 months of this Bylaw coming into effect and, if rejected, any future development must comply with this Bylaw.

1.10. Severability

- 1.10.1. If any section, subsection, paragraph, clause or phrase of this bylaw is for any reason held to be invalid by the decision of a court of competent jurisdiction, such decision does not affect the validity of the remaining portions of this Bylaw.

1.11. Zoning Designation

- 1.11.1. The City of Armstrong is divided into the zones, listed in the “Zoning Designation” column of the table below, and the zones may also be identified by the corresponding abbreviations listed in the “Abbreviation” column, and the remaining column is provided for convenience:

SECTION 2 - INTERPRETATION

2.1. Rules of Interpretation

- 2.1.1. Words used in the present tense include the other tenses and derivative forms; words used in the singular include the plural and vice versa; and the word "person" includes a corporation, firm, partnership, trust, and other similar entities as well as an individual. Words have the same meaning whether they are capitalized or not.
- 2.1.2. The words "shall" and "is" require mandatory compliance.
- 2.1.3. The word "or" means either, but not both or all.
- 2.1.4. The phrase "used for" includes "arranged for", "designed for", "maintained for", or "occupied for".
- 2.1.5. Words, phrases, and terms neither defined in this section nor in the Local Government Act or Community Charter shall be given their usual and customary meaning.

2.2. Zone Boundaries

- 2.2.1. The zone boundaries on the Zoning Map shall be interpreted as follows:
 - (a) Where a zone boundary follows a street, lane, railway, pipeline, power line, utility right-of-way, or easement, it follows the centreline, unless otherwise clearly indicated on the Zoning Map;
 - (b) Where a zone boundary is shown as approximately following the City boundary, it follows the City boundary;
 - (c) Where a zone boundary is shown as approximately following the edge, shoreline, or high water mark of a water body, it follows the natural boundary. In the event of change, it moves with the natural boundary;
 - (d) Where a zone boundary is shown as approximately following a property line, it follows the property line;
 - (e) In circumstances not covered above, the zone boundary shall be determined by the scale of the Zoning Map.

- 2.2.2. When any street is closed, the roadway lands have the same zoning as the abutting land. When abutting lands are governed by different zones, the centre of roadway is the zone boundary unless the zone boundary is shown clearly following the edge of the roadway. If the roadway is consolidated with an adjoining parcel, the parcel's zoning designation applies to affected portions of the roadway.

2.3. Minimum Parcel Area for Panhandle Parcels

- 2.3.1. Where a parcel is a panhandle, the access strip or panhandle shall not be included in the calculation of the area of the parcel for the purposes of determining compliance with a minimum parcel area requirement of this Bylaw.

2.4. Units of Measure

- 2.4.1. Metric units are used for all measurements in this Bylaw. The approximate imperial measurement equivalents are shown in brackets for convenience only and do not form part of this Bylaw.
- 2.4.2. For the purposes of this Bylaw the following units of measure are abbreviated as follows:
- (a) Centimetres – cm
 - (f) Square Centimetres – cm²
 - (g) Hectares – ha
 - (h) Kilograms – kg
 - (i) Metres – m
 - (j) Square metres – m²
 - (k) Cubic metres – m³
 - (l) Litres - L

2.5. General Definitions

- 2.5.1. The definitions of uses group individual land uses into a specified number of classes, with common functional or physical impact characteristics. They define the range of uses which are permitted as principal and accessory, with or without conditions, within various zones of this Bylaw.
- 2.5.2. The following words, terms, and phrases, wherever they occur in this Bylaw, shall have the meaning assigned to them as follows:

A

ACCESSORY means customarily incidental, associated with, or subordinate to.

- 4.6.1. Car washing establishments shall provide a minimum of 5 vehicle storage spaces per automated washing bay at the entrance end of the facility with each vehicle storage space having a minimum dimension of 6.0m long and 3.0m wide.
- 4.6.2. Where the washing bay is coin operated and the vehicle is manually washed by an occupant of the vehicle a minimum of 2 vehicle storage spaces shall be provided at the entrance end of the facility.

4.7. Medical Marihuana Production Facilities

4.7.1. The following conditions shall apply to Medical Marihuana Production Facilities:

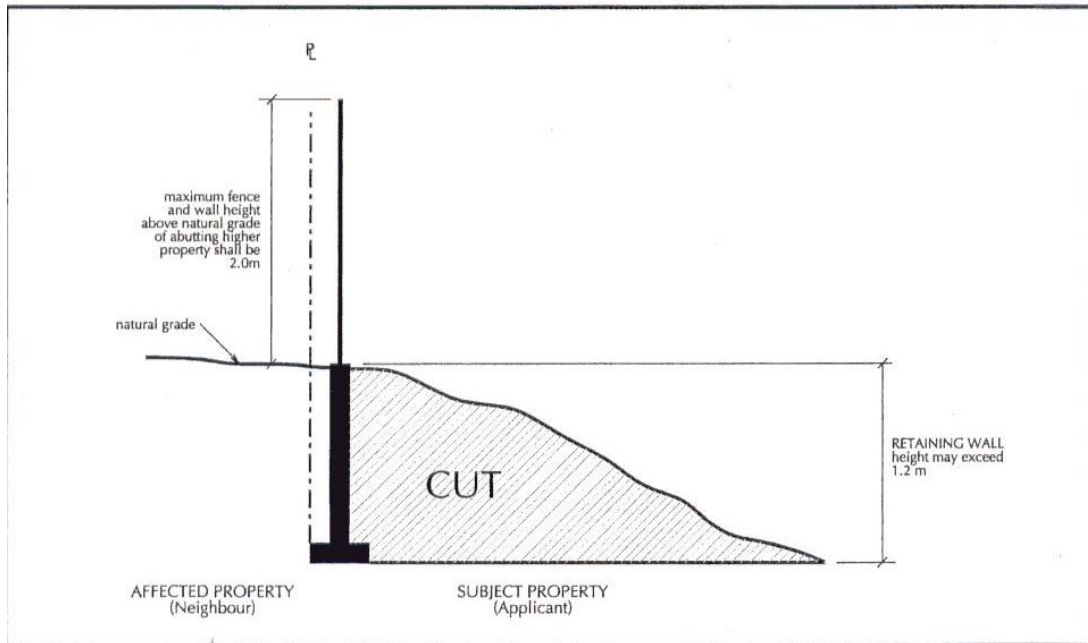

- (a) Medical Marihuana Production Facilities shall be located only on properties with a minimum parcel size of one hectare, within the Agricultural Land Reserve;
- (b) All activities associated with Medical Marihuana Production Facilities shall be housed completely within an enclosed building and there shall be no outdoor storage or display.
- (c) Nothing shall be done which is or will be become an annoyance or nuisance to the surrounding areas by reason of unsightliness, the emission of odours, liquid effluence, dust fumes, smoke, vibration, noise or glare, nor shall anything be done which creates or causes a health, fire, or explosion hazard, electrical interference or undue traffic congestion.

SECTION 5 - SCREENING AND LANDSCAPING

5.1. Screening

- 5.1.1. Landscape screening consisting of a solid, opaque 2.5m (8.202 feet) fence or wall, which shall be uniformly painted, well maintained and not used for advertising, display purposes or for the posting of notices, or a compact evergreen hedge not less than 2m (6.562 feet) in height, which shall be maintained in good condition at all times, shall be provided as follows:
- (a) In Commercial, Industrial and Residential (with more than 4 dwelling units) zones, any part of a lot used or intended to be used as an outside storage area shall be completely screened from public view, and from adjacent properties, and no material shall be piled to extend above such screening.
 - (b) Where any Commercial, Industrial, or Residential (with more than 4 dwelling units) parking or display area abuts a lot in a Residential zone, or is separated by a lane therefrom, screening of 2m (6.562 feet) in height shall be provided and properly maintained along the common property boundary.
 - (c) Notwithstanding the requirements of Subsection 5.1.1. (b) above, screening along a lane shall be not less than 0.7m (2.297 feet) and not more than 1.1m (3.609 feet) in height for a distance of not less than 6m (19.68 feet) from all points of ingress and egress to and from such parking or display area.
 - (d) In Commercial, Industrial and Residential (with more than 4 dwelling units) zones, garbage containers shall be screened from public view, and from adjacent properties, with walls, fencing, hedging, planting or other opaque screening materials. Such containers shall not be sited adjacent to a property boundary abutting a lot in a zone other than a Commercial, Industrial or Residential (with more than 4 dwelling units) zones and shall be sited in accordance with the provisions of Section 3.6. (Accessory Structures) of this Bylaw.
 - (e) In Commercial zones, Containers (as defined in Section 2) shall be screened from public view, and from adjacent properties, with walls, fencing, hedging, planting or other opaque screening materials. Such containers shall not be sited adjacent to a property boundary abutting a lot in a zone other than Commercial zone and shall be sited in accordance with provisions of the Commercial Zones of this bylaw.

- 5.1.2. The height of screening in the form of fencing or landscaping shall be determined by measurement from the ground level. In the case of a sloping lot, fence height shall be measured at the midpoint between fence posts.
- 5.1.3. Any portion of a retaining wall which projects above the surface of the ground which it supports shall be considered as a screen and subject to the regulations of this Section.
- 5.1.4. Notwithstanding Subsections 5.1.1. (c) and 5.1.3. above, in cases where a retaining wall has been constructed along a property line, the height of screening shall be determined by the measurement from the surface of the ground which the retaining wall supports as illustrated in the following diagram:

- 5.1.5. Rooftop, mechanical and electrical equipment in zones other than Agricultural zones shall be screened from view from a public roadway or adjacent property at grade.
- 5.1.6. Subject to the vision clearance provisions of Subsection 5.2.1. the following height limitations shall apply to screening:
 - (a) In all zones, fences and hedges not greater than 1.2m (3.937 feet) in height may be located anywhere on a lot.
 - (b) In all zones, except Industrial zones, fences or walls not greater than 2m (6.562 feet) in height may be located on any lot to the rear of a required front yard, except along an exterior side lot line, in which case the maximum fence height shall be 1.2m (3.937 feet).
 - (c) In Industrial zones, fences or hedges not greater than 2.5m (8.202 feet) in height may be located on any lot to the rear of a required front yard.

- (d) In Residential zones, where the rear line of a lot abuts the side line of an adjoining lot, the height of fences, walls, or hedges, on such rear lot line shall be not greater than the height permitted on the side line of an adjoining lot at the point of abutment.

5.2. Sight Line Triangle

5.2.1. A fence, wall structure, hedge, bush, shrub, tree or other visual obstruction must not be erected maintained or allowed to grow to a height greater than 1.0m in the area bounded by the intersection of lot lines at

- (a) a street corner (A) and
- (b) a line joining points along said lot line 6m from their points of intersection (B).

For additional guidance, see illustration below:

5.2.2. Subsection. 5.1.6. and 5.2.1. above shall not apply to open mesh or chain link type fences erected on cemetery, public playground, park, playfield, elementary, or high school areas, and in Commercial and Industrial zones. In these cases, no such fence shall exceed a height of 3.5m (11.48 feet).

5.3. Landscaping

5.3.1. Landscaping buffers shall be provided and well maintained at all times, as follows:

- (a) Where any commercial, industrial or residential (more than 4 dwelling units) development abuts a lot in a Residential Zone, a landscaped buffer area shall be provided and maintained, along the common property boundary, with a minimum width of 2m (6.562 feet).
- (b) Where any commercial or industrial development abuts a Controlled Access Highway, a landscaped buffer area shall be provided and maintained with a minimum width of 8m (26.25 feet).
- (c) Where any commercial or industrial development abuts any other highway, a landscaped buffer area shall be provided with a minimum

width equal to the lesser of 2m (6.562 feet) or the required front or exterior side yard setback of the applicable zone.

- (d) The remainder of the property that is not used for buildings, display, parking, or access driveways shall be suitably landscaped.

5.3.2. Landscaping shall consist of the following:

- (a) A minimum of five percent (5%) of the landscaped area shall be planted in trees using the canopy area of the trees as a measure of the number and size of trees required
- (b) Other landscape materials including drought tolerant plants, xeriscaping and measures for water conservation may be utilized subject to the approval of the City of Armstrong.

5.3.3. All outdoor storage areas shall have a dust free surface.

5.3.4. Where automatic irrigation systems are used, no run-off will be permitted onto sidewalks, streets or parking areas.

5.3.5. Where landscaping extends onto the road right of way boulevard, landscaping shall be limited to low growing shrubs, perennials or ground cover. No boulders or other large obstructions shall be permitted within the road right of way.

5.3.6. In no case shall codling moth host trees including apple and crabapple trees (*Malus* spp.), pear trees (*Pyrus* spp.), quince trees (*Cydonia oblonga*) and flowering quince or japonica trees (*Chaenomeles japonica*) be used for landscaping.

SECTION 6 - ACCESS, PARKING AND LOADING

6.1. Driveway Access

- 6.1.1. Each vehicular access to and from a Highway shall comply with all requirements of this bylaw and the Armstrong Subdivision and Development Servicing Bylaw currently in effect.
- 6.1.2. Each Residentially zoned property shall have one (1) vehicular access point. Additional access may be permitted if separated by a minimum distance of 18m.
- 6.1.3. Vehicular access in Residential zones shall be a maximum of 6m in width at the point at which the vehicular access connects with the abutting Highway.
- 6.1.4. Location and specifications of vehicular access shall be as follows:
 - (a) Traffic safety and good engineering practices, including sight distances shall govern the location of vehicular access to and from a Highway.
 - (b) Existing works, services and other infrastructure shall not be affected by the installation or construction of vehicular access to or from a Highway;
 - (c) Vehicular access shall be constructed so as to ensure that surface drainage from private property does not adversely affect the Highway or adjacent properties;
 - (d) All portions of the vehicular access shall be constructed within the frontage of the property served by the access; and
 - (e) The maximum grade for a private vehicular access shall be 2% for the first 6m from the property line and 12% thereafter.

6.2. Access to Panhandle Lots

- 6.2.1. For panhandle lots, the frontage required shall in no case be less than:
 - (a) 6m where the panhandle lot cannot be further subdivided; or
 - (b) 18m where the panhandle lot can be further subdivided into two or more lots.

6.3. Off-Street Vehicle Parking

- 6.3.1. Where any development is proposed, including new development, change of use of existing development, or enlargement of existing development, off-street vehicle parking (including parking for the disabled, and visitors) shall be provided by the property owner in accordance with the requirements of this Bylaw.
- 6.3.2. Required off-street parking spaces shall not be used for off-street loading, driveways, commercial repair work, display, sale, or storage of goods of any kind.
- 6.3.3. Number of Spaces
 - (a) The minimum number of off-street vehicle parking spaces required for each use is specified in the Parking Schedule (Table 6.1) except where additional parking is required by the Ministry of Transportation and Infrastructure for sites with direct access to a provincial highway.

- (b) Where calculation of the total number of parking spaces yields a fractional number, the required number of spaces shall be the next highest whole number.
- (c) Where more than one calculation of parking space requirements is specified for a land use, the greater requirement shall be applied.
- (d) Where the Parking Schedule does not clearly define requirements for a particular development, the single use class or combination of use classes most representative of the proposed development shall be used to determine the parking requirements.
- (e) Where a development consists of a mix of use classes, the total off-street parking requirement shall be the sum of the off-street parking requirements for each use class.

6.3.4. Parking Spaces for the Disabled shall be:

- (a) designated if the B.C. Building Code deems that disabled access to the development is required;
- (b) designated as parking space for the disabled using appropriate signage; and
- (c) included in the calculation of the applicable minimum parking requirement;
- (d) as close as practical to the building entrance; and
- (e) a minimum 3.7m in width and minimum 6.0m in length.

6.3.5. Parking Spaces for Visitors

- (a) Parking spaces for visitors shall be provided in accordance with the Parking Schedule (Table 6.1) of this Bylaw.

6.3.6. Location

- (a) For residential use classes:
 - (i) all required off-street parking shall be located on the site of the development served by the parking;
 - (ii) all visitor parking is to be easily accessible to the access points of the corresponding development and or buildings;
 - (iii) for developments with 2 or less dwelling units, no required off-street parking spaces shall be located in the required front yard;
 - (iv) for developments with 3 or more dwelling units, no off-street parking shall be located within 1.5m of any side or rear property line or within 3.0m of any flanking street.
- (b) For non-residential use classes:
 - (i) all required off-street parking shall be located on the site of the development served by the parking;
 - (ii) no off-street parking shall be located within 2.0m of any front property line or any property line abutting a street; and
 - (iii) no off-street parking shall be located within 1.5m of any side or rear property line abutting Residential zones.

6.3.7. Cash in Lieu of Parking

- (i) Despite Section 6.3.1., as an alternative to providing up to 50% of the number of parking spaces required for commercial and mixed use developments within the Town Centre Commercial C.1 Zone, the City will accept payment of the amount to be paid in respect of each required parking space that is not provided, as may be established in the Fees and Charges Bylaw.

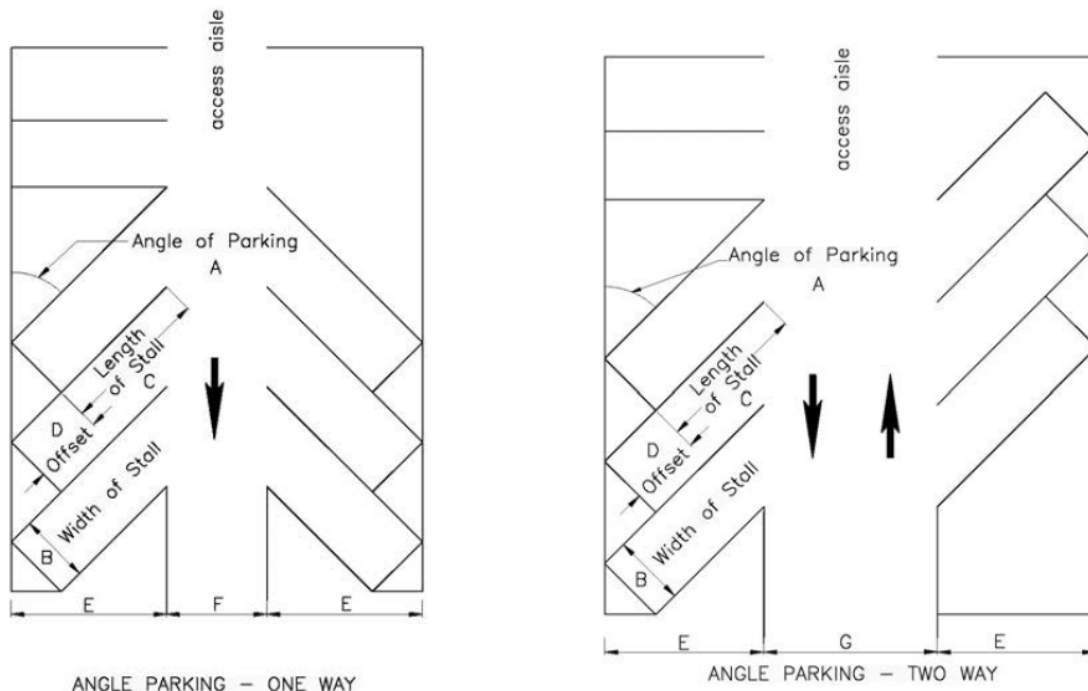

6.3.8. Size of Off-Street Parking Spaces

- (a) Each required off-street parking space shall conform to the following provisions as outlined in Figure 6.1 Parking Stall Dimensions and Figure 6.2 Parking Access Angles:

FIGURE 6.1 Parking Stall Dimensions

Angle (A)	Width (B)	Length (C)	Offset (D)	Depth (E)	Drive Aisle (F) one way	Drive Aisle (G) Two way
90	2.5m	6.0m	0.0m	6.0m	7.0m	7.0m
60	2.5m	6.0m	6.6m	6.6m	5.5m	7.0m

parallel	2.5m	=7.0m 5.5m for an end space with open end.	2.5m	2.5m	3.5m	7.0m

FIGURE 6.2 Parking Access Angles

- 6.3.9. All parking spaces must have a clear vertical height of not less than 2.2m.
- 6.3.10. For parking spaces other than parallel parking spaces, up to 40% of the required parking spaces may be of a length shorter than that required above, to a minimum of 5.0m, a clear width of not less than 2.3m and a clear height of not less than 2.2m.
- 6.3.11. Where the use of a parking space is limited on one side by a wall or a column, the unobstructed width of the parking space shall be 2.8m and if in this case a building door opens into the parking space on its long side, the unobstructed width shall be 3.0m.
- 6.3.12. Tandem Parking
 - (a) Parking spaces may be configured in tandem for lots with 3 or fewer dwelling units.
 - (b) In housing developments containing four or more dwelling units, tandem parking may be allowed provided each dwelling has one directly accessible parking space and guest parking is not in tandem.

6.4. Off-Street Loading

- 6.4.1. Where any development is proposed, including new development, change of use of existing development, or enlargement of existing development, off-street loading spaces shall be provided by the property owner in accordance with the requirements of this Bylaw.
- 6.4.2. Number of Spaces
 - (a) The minimum number of off-street loading spaces, including bus loading spaces, required for each use is specified in the Loading Schedule (Table 6.2).
 - (b) Where calculation of the total number of loading spaces yields a fractional number, the required number of spaces shall be the next highest whole number.
 - (c) Where more than one calculation of loading space requirements is specified for a land use, the greater requirement shall be applied.
 - (d) Where the Loading Schedule does not clearly define requirements for a particular development, the single use class or combination of use classes most representative of the proposed development shall be used to determine the loading space requirement.
 - (e) Where a development consists of a mix of use classes, the total off-street loading requirement shall be the sum of the off-street loading requirements for each use class, unless there is a complementary demand or differences in periods of use for loading that warrants a different requirement.
- 6.4.3. Location
 - (a) Off-street loading space shall be provided entirely within the property of the development being served, and shall be subject to all setbacks and yard requirements specified elsewhere in this Bylaw.

- (b) Off-street loading space shall be oriented away from residential development.

6.4.4. Size and Access

- (a) Each off-street loading space shall be of adequate size and accessibility to accommodate the vehicles expected to load and unload, but in no case shall a loading space be less than 28m² in area, less than 3.0m in width, or have less than 4.0m in overhead clearance.
- (b) Each required bus loading space shall be a minimum of 3.6m in width, a minimum of 12.2m in length, and have a minimum clearance of 4.6m.
- (c) Access to any loading area shall be provided, wherever possible, internally to the development or from a lane abutting the development.
- (d) Access to any loading area shall be arranged such that no backing or turning movement of vehicles going to or from the site causes interference with traffic on the abutting streets or lanes and in all cases shall be subject to the approval of the Public Works Manager.

6.5. Development Standards for Vehicle Parking and Loading

- 6.5.1. Every off-street parking or loading area required by this Bylaw to accommodate 3 or more vehicles, and every access road to such required parking or loading, shall have a dust-free surface constructed such that surface drainage is directed to an approved drainage system or is contained on-site. Any requirement for concrete or asphalt does not apply to Agricultural zones or public parks and open space use.
- 6.5.2. Every off-street parking or loading area required by this Bylaw to accommodate 3 or more vehicles:
 - (a) shall clearly delineate individual parking spaces, loading spaces, spaces for the disabled, maneuvering aisles, entrances, and exits with pavement markings, signs, and or other physical means;
 - (b) shall direct surface drainage to the public storm sewer system, if available, or alternatively to approved planting areas or an approved on-site drainage system; and
 - (c) shall be constructed with surface grades not exceeding 6%.

- 6.5.3. No public street shall be used for the required aisle access to parking spaces. Where a lane is used for aisle access, the parking spaces shall be increased by a minimum of 1.5m (4.92 feet) in length.
- 6.5.4. Where a parking or loading area is associated with a commercial or industrial use and the development property abuts property in a Residential zone, an Institutional zone, or an abutting road right-of-way, the parking or loading area shall have a landscaped screen as required by Section 5.
- 6.5.5. Every off-street parking or loading area required by this Bylaw to accommodate 50 or more vehicles at-grade shall incorporate landscaped open space within the parking area calculated on the basis of 2.0m² of landscaped area per required parking and loading space. This shall be landscaped in accordance with Section 5.
- 6.5.6. Every off-street parking or loading area, and access thereto, shall have fencing, curbs, or secured wheel stops to prevent vehicles from encroaching upon property lines.
- 6.5.7. Every off-street parking or loading area which is illuminated shall have all lighting positioned in such a manner that light falling onto abutting properties is minimized.
- 6.5.8. Any trash storage or collection area co-existing with any parking or loading area:
 - (a) shall be clearly delineated as separate and in addition to required parking and loading spaces;
 - (b) shall be located such that collection vehicles can gain access without undue interference with the operation of the parking and loading area; and
 - (c) shall have a fenced or landscaped screen as required by Section 5.

6.6. Bicycle Parking

6.6.1. Bicycle parking shall be provided in accordance with Table 6.3.

6.6.2. In this section:

- (a) “Class 1” means a secure, weather-protected bicycle parking facility used to accommodate long-term parking, such as for residents or employees, usually within a building or covered, fenced area;
- (b) “Class 2” means a short-term visitor bicycle parking facility that may offer some security, and may be partially protected from the weather, for example a bike rack at a building’s entrance.

6.6.3. Bicycle parking facility dimensions shall be as follows:

- (a) Stalls shall be a minimum of 0.6m in width and a minimum of 1.8m in length, shall have a vertical clearance of at least 1.9m, and shall be situated on a hard surface
- (b) Aisles between parked bicycles shall be a minimum of 1.2m in width.
- (c) Bicycle racks shall be constructed of theft resistant material, shall be securely anchored to the floor, building or ground, shall support the bicycle frame above the centre of gravity, and shall enable the bicycle frame and front or rear wheel to be locked with a U-style lock.

(d) Bicycle racks shall be located in a convenient, well-lit location that is easily located and accessible by visitors and subject to casual surveillance by occupants of the building served by the rack.

SECTION 7 – SIGNS

7.1. Application

7.1.1. No person shall construct, place, erect, display, alter, repair or re-locate a sign except in accordance with the City of Armstrong Sign Regulation Bylaw currently in effect.

SECTION 8 - AGRICULTURAL AND COUNTRY RESIDENTIAL ZONES

8.1. Agriculture (A.1)

8.1.1. Purpose

To provide for agricultural uses as well as other complementary uses suitable to an agricultural setting.

8.1.2. The following uses and no others are permitted in this zone:

(a) Principal Uses

- (i) Agricultural Fair and support services
- (ii) Agriculture, General
- (iii) Agriculture, Intensive
- (iv) Dwelling unit
- (v) Greenhouses and plant nurseries
- (vi) Medical Marihuana production facilities on properties located in the Agricultural Land Reserve
- (vii) Parks

(b) Accessory Uses

- (i) Accessory Buildings or Structures
- (ii) Accessory Farm Sales on properties located in the Agricultural Land Reserve
- (iii) Agri-tourism Accommodation on properties located in the Agricultural Land Reserve
- (iv) Bed and Breakfast Homes
- (v) Care Facilities, minor
- (vi) Home Occupations
- (vii) Utility Services, minor impact
- (viii) Wineries and Cideries on properties located in the Agricultural Land Reserve

8.1.3. Lot Size, Lot Density, Lot Coverage, Building Height and Siting

A.1: Agriculture		
Lot Size		
(a)	Lot size, minimum	4 ha
(b)	Lot frontage, minimum	30m or 10% of the perimeter of the parcel, whichever is less
Lot Density		
(c)	Dwelling unit, maximum per lot	2 units
(d)	Accessory Farm Sales building, maximum per lot	1 unit

(e)	Agricultural Worker dwelling pursuant to the Agricultural Land Reserve Act, maximum per lot	1 unit on parcels greater than 4 ha
Lot Coverage		
(f)	Lot Coverage, building and structures maximum	20% for apicultural use 25% for tree, vine, field and forage crop buildings 75% for greenhouses 5% for agri-tourism accommodation 35% for all other uses or a combination of uses, excluding greenhouse use
(g)	Lot Coverage, buildings and structures plus impermeable surfaces, maximum	80% for greenhouses 40% for all other uses or a combination of uses excluding greenhouse use
Building Size		
(h)	Dwelling Unit, maximum height	9m
(i)	Agricultural Buildings, maximum height	20m
