(d) for a *complex building*: equivalent of *building permit* fee up to \$500.

10.9 The security deposit sum set out in section 10.8 of this Part

Permit Fee Refunds

- 10.13 No fee or part of a fee paid to the Village may be refunded if construction of the *building* has started.

Construction Before Permit Issued

- 10.16 The *building permit* or other *permit* fee is doubled for every *permit* application if construction commenced before the *building official* issued a *permit*, to a maximum of \$10,000.00.

Expiration of Application for a Permit

- 10.17 A *building permit* or a mechanical *permit* application expires 180 days from the date a complete application is received under this Part if the *building permit* or mechanical *permit* is not issued by the application expiration date, unless the *permit* is not issued only due to delays caused by the Village.

Issuance of a Building Permit

- (e) the *owner* has retained an architect if required under this bylaw; and
- (f) no covenant, agreement, resolution or regulation of the Village requires or authorizes the *permit* to be withheld,

the *building official* must issue the *permit*, in the form prescribed by the *building official*, for which the application is made, and the date of issuance is deemed to be the date the Village gives written notice to the *owner* that the *permit* is ready to be picked up by the *owner*.

- 10.19 Despite section 10.18, the *building official* may refuse to issue a *permit* when the *owner* has been notified of a violation of this bylaw about the construction of another *building* or *structure* by the *owner*.

Compliance with the *Homeowner Protection Act*

- 10.20 If the application is in respect of a *building* that includes, or will include, a *residential occupancy* governed by the *Homeowner Protection Act*, the *building permit* must not be issued unless the *owner* provides evidence under section 30(1) of the *Homeowner Protection Act*, that the proposed *building*

- (a) is covered by home warranty insurance; and
- (b) the *constructor* is a licensed “residential builder” as defined in that Act.

- 10.21 Section 10.20 of this Part does not apply if the *owner* is not required to be licensed and to obtain home warranty insurance in accordance with sections 20(1) or 30(1) of the *Homeowner Protection Act*.

- 10.22 Every *permit* is issued subject to the *owner* and *constructor* maintaining compliance with the *Homeowner Protection Act* and negotiations under it during the term of the *permit*.

Partial Construction

- 10.23 If a site has been *excavated* under a *building permit* for *excavation* issued under this bylaw and a *building permit* is not subsequently issued or a subsisting *building permit* has expired under section 10.43, but without the construction of the *building* or *structure* for which the *building permit* was issued having commenced, the *owner* must fill in the *excavation* to restore the original gradients of the site within 60 days of being served notice by the Village to do so.
- 10.24 If a *building permit* has expired and partial construction has progressed, with no extension requested of the *building official* under section 10.44, permanent type fencing with privacy screen complying with the Village’s Zoning Bylaw, must be erected around the *building* site for protection to the public.

Conditions of a Building Permit

- 10.25 A *building permit* or an application for a *building permit* that is in process may not be transferred or assigned until the *owner* has notified the *building official* in writing, the *building official* has authorized the transfer or assignment in writing and the *owner* has paid the non-refundable fee required under Appendix A. The transfer or assignment of a *building permit* is not an extension of a *building permit*.
- 10.26 The review of plans and supporting documents and issuance of a *building permit* do not prevent the *building official* from subsequently requiring the correction of errors in the plans and supporting documents, or from prohibiting *building* construction or *occupancy* being carried on when in violation of this or another bylaw.

Inspections

- 10.27 If a *registered professional* provides letters of assurance in accordance with this Part, the Village will rely solely on *field reviews* undertaken by the *registered professional* and the letters of assurance submitted pursuant to this bylaw and the *building code* as assurance that the construction substantially conforms to the design, plans and specifications and that the construction complies with the *building code*, this bylaw and other applicable enactments respecting safety.
- 10.28 Despite section 10.27 of this Part, a *building official* may attend the site from time to time during the course of construction to ascertain that the *field reviews* are taking place and to monitor the *field reviews* undertaken by the *registered professionals*.
- 10.29 A *building official* may attend periodically at the site of the construction of *simple buildings* or *structures* to ascertain whether the work is being carried out in substantial conformance with the *building code*, this bylaw and any other applicable enactments concerning safety.
- 10.30 For all work in respect of *simple buildings* the *owner* must give at least 48 hours' notice to the Village when requesting an inspection and must obtain an inspection and receive a *building official's* written acceptance of the following aspects of the work prior to concealing them
- (a) after demolition, the grading of and removal of debris from the site;
 - (b) *excavation*, within 24 hours of the start of *excavation*;

10.31 A *building official* will only carry out an inspection under section 10.30 if the *owner* or the *owner's agent* has requested the inspection in accordance with this bylaw.

10.32 Despite the requirement for the *building official's* acceptance of the work outlined in section 10.30, if a *registered professional* provides letters of assurance, the Village will rely solely on *field reviews* undertaken by the *registered professional* and the letters of assurance submitted pursuant to this bylaw as assurance that the aspects of the construction referenced by those letters of assurance substantially conform to the *design*, plans and specifications and that the construction complies with the *building code*, this bylaw and other applicable enactments respecting safety.

10.33 No person may conceal any aspect of the work referred to in section 10.30 of this bylaw until a *building official* has *accepted* it in writing.

10.34 For work in respect of *complex buildings*, the *owner* must

- (a) give at least 48 hours' notice to the Village when requesting a preconstruction meeting with the *building official* prior to the start of construction, and the *owner* or his or her

Stop Work Order

- 10.35 The *building official* may direct the immediate suspension or correction of all or a portion of the construction on a *building* or *structure* by attaching a stop work order notice on the premises whenever it is found that the work is not being performed in accordance with the requirements of the *building code*, any applicable bylaw of the Village or the applicable provisions of the *Homeowner Protection Act*.
- 10.36 The *coordinating registered professional* may request, in writing, that the *building official* order the immediate suspension or correction of all or a portion of the construction on a *building* or *structure* by attaching a stop work order notice on the premises. The *building official* must consider such a request and, if not acted upon, must respond, in writing, to the *coordinating registered professional* and give reasons.
- 10.37 If a *registered professional's* services are terminated, the *owner* must immediately stop any work that is subject to his or her *design* or *field review* and the *building official* is deemed to have issued a stop work order under section 10.35.
- 10.38 The *owner* must immediately, after the posting of a notice under section 10.35, secure the construction and the lands and premises surrounding the construction in compliance with the safety requirements of every statute, regulation or order of the Province or of a provincial agency and of every applicable bylaw of the Village.

- 10.41 If a person occupies a *building* or *structure* or part of a *building* or *structure* in contravention of this bylaw, a *building official* may post a Do Not Occupy Notice in the form prescribed by the *building official* on the affected part of the *building* or *structure*.
- 10.42 If a notice is posted under section 10.41, the *owner* of a parcel on which a Do Not Occupy Notice has been posted, and every other person, must cease *occupancy* of the *building* or *structure* immediately and refrain from further *occupancy* until all applicable provisions of the *building code* and this bylaw have been substantially complied with and the Do Not Occupy Notice has been rescinded in writing by a *building official*.

Permit Expiration

- 10.43 Every *permit* is issued on the condition that the *permit* expires and the rights of the *owner* under the *permit* terminate if
- (a) the work authorized by the *permit* is not commenced within 180 days from the date of issuance of the *permit*;
 - (b) work is discontinued for a period of 180 days; or
 - (c) the work is not completed within two years of the date of issuance of the *permit*.

Permit Extension

- 10.44 A *building official* may extend the period set out under section 10.43 for only one period, not to exceed twelve months, if construction has not been commenced or has been discontinued due to adverse weather, strikes, material or labour shortages, other similar hardship beyond the *owner's* control, or if the size and complexity of the construction warrants, if

- 10.47 On receipt of the written cancellation notice, the *building official* must mark on the application, and a *permit* if applicable, the date of cancellation and the word "cancelled".
- 10.48 If the *owner*, or his or her *agent*, submits changes to an application after a *permit* has been issued and the changes, in the opinion of the *building official*, substantially alter the scope of the work, design or intent of the application in respect of which the *permit* was issued, the *building official* may cancel or amend the *permit* and mark on the *permit* the date of cancellation or amendment and the word "cancelled" or "amended".
- 10.49 If a *building permit* application or *permit* is cancelled, and construction has not commenced under the *permit*, the *building official* must return to the *owner* any fees deposited under Appendix A, less
- (a) any non-refundable portion of the fee; and
 - (b) 15% of the refundable portion of the fee.

Occupancy

- 10.50 No person may occupy a *building* or *structure* or part of a *building* or *structure* until a final inspection notice has been issued by a *building official*.

- 10.53 A *building official* may issue a final inspection notice for partial *occupancy* of a portion of a *building* or *structure* under construction when

CLIMATIC INFORMATION

DESIGN SNOW LOADS

There have been significant changes to design snow loads for buildings in some locations in the province. This is the result of the collection of an additional twenty years of data as well as the addition of more measuring stations through the province. Suggested snow loads for various BC locations are listed in the Supplement to the 1990 NBC. However, values established by a political jurisdiction such as a municipality or regional district, by a local building bylaw, take precedent over values listed in the Supplement.

Snow loads are specified as "ground snow loads". For building roof design these ground loads must be converted to roof loads. A new method of calculating roof snow loads has been incorporated in the 2006 BC Building Code. This new method accounts for the fact that the total snow loading has two components:

1. A snow component, S(s) which is based on a 50-year probability; and
2. A rain component, S(r) which accounts for an additional loading due to wetting of the snow by rain.

As before, a reduction factor to account for drifting snow is applied to the ground snow load to determine the roof snow load. This factor is not applied to the rain component since rain does not 'drift'. This results in the following formula for calculating roof snow load:

$$S = C(b) \times S(s) + S(r)$$

Where C(b) = the basic snow load roof factor, 0.5 for the entire width of a roof less than 4.3 m and 0.6 for all other roofs.

Example:

What is the design snow load for a house (over 4.3m in width) located in Canal Flats? Use data from the Supplement.

From the Supplement, S(s) = 2.5 kPa S(r) = 0.2

$$s = (0.6 \times 2.5) + 0.2 \quad s = 1.7 \text{ kPa}$$

Municipality	Ground Snow Load (kPa)		Total	Ground Snow/Rain Load	Design Load		Elevation		Latitude and Longitude	
	S(s)	S(r)		(psf)	kPa	psf	Metres	Feet		
Canal Flats	2.5	0.2	2.7	56	1.7	36	818	2683	50°	9'N
									115°	49"W
