WATER LINE BY-LAW

Purpose:

By-Law of the Town of Salmon Cove for the direction of senior staff and council regarding the Water Line.

Authority:

As per motion on the 4th day of February, in the year 2025.

Motion 025-049

Motion to accept the By-Law for Water Line.

By-Law:

Residents that are now on the old service lines or new service lines are responsible for any problems that may occur from the existing standpipe in.

Residents who are on the old line but have access to the new line as a result of a water and sewer development are expected to tie into the new line in less than (91) days depending on the season and frost in ground determined by the town.

Residents who don't avail themselves of the service of the new water line in the (90) day period may continue being serviced by the old line. However, if for ANY reason the town feels it can no longer service the old line, the service will be discontinued and the residents will have the option of tying into the new line from the new standpipe in, at their own expense without further notice.

The Town Council of Salmon Cove reserves the right to discontinue water service to new or old water lines when deemed to be necessary by council for any period of time.

Refer to Town of Salmon Cove's Water and Sewer Connection Application/Permit.

This By-Law shall come into effect on the 4th of February 2025.

Mayor Edna Lambert
