By-law No. 2412-22

Special Service Plan No. 1-2022

for

Collection of Waste St. Malo and Otterburne Areas

(Pursuant to Subsection 314 of *The Municipal Act*)

(A) Description of the Proposed Special Service

The Rural Municipality of De Salaberry has established, regulated and maintained a waste collection system for the St. Malo area (since 1974) and Otterburne area (since 2006).

The Municipality wishes to continue to provide for the collection of waste from 2023 to 2025, inclusively. The rates include a tipping fee and the contractor collection charge will not change.

Residential & seasonal garbage will be limited to a maximum of four (4) regular sized (approximately 26" x 33") garbage bags or a maximum of one (1) bin of household waste only per week.

The three-year average (2019-2021) of the total volume of waste delivered to the landfill site from the waste collection areas is 817.9 tonnes or 35.4% of the total tonnes received at the landfill. The tipping fees charged at the landfill are \$80 per tonne. The amount recovered through the Special Services Bylaw 2389-20 in 2022 was approximately \$231,000.

(B) Special Service area to be levied

The Special Service Area to be levied under this proposal will be all taxable, grant-in-lieu and otherwise exempt properties receiving waste collection services within the communities of St. Malo and the Otterburne areas and as listed on the attached Schedule 'B'. Vacant lots with a seasonal camper currently receiving waste collection services are included.

Lots that do not have a dwelling unit as per the current Assessment Roll are excluded from paying for this service unless a seasonal camper is located on the property and waste collection services are provided.

The property exempt from this by-law is roll number 145800.

(C) Estimated cost of the Service

The estimated cost of the service for 2023, 2024 and 2025 is \$245,000 per year respectively. All annual surpluses in the Environmental Health budget will be transferred to the Waste Disposal Reserve Fund to be used towards capital projects related to the landfill.

(D) Method of Calculating the Proposed Special Services Fee

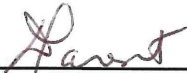

The method and rate of calculating the special services tax is on a per unit basis. The proposed unit rate to be levied on the property is based on the number of dwelling units listed in the Assessment Roll unless a bin is placed on the property, in which case the bin charge noted below will apply.

The rates of all residences and businesses and others are as follows:
