(d) CALCULATION OF PARKING REQUIREMENTS

- (i) Where a part of a parking space is required in accordance with this By-Law for a use listed in Clause (b) or Clause (c) of this Subsection, such part shall be considered 1 parking space for the purpose of calculating the total parking requirements for the said use.

- (ii) Where a building, structure or lot accommodates more than one type of use as set out in Clause (b) or Clause (c) of this Subsection, the total parking space requirement for such building, structure or lot shall be the sum of the requirements for the separate uses thereof.
- (iii) Parking spaces required in accordance with this By-Law shall not include any parking space used or intended to be used primarily for the storage or parking of vehicles for hire or gain, display or sale.

(e) DIMENSIONS OF PARKING SPACES

A parking space required hereby shall have minimum rectangular dimensions of 2.8 metres by 5.5 metres (9 ft. X 18 ft.), except that:

- (i) the minimum width of a parking space accessory to a single dwelling shall be 2.5 metres; and
- (ii) where the principal access to a parking space is provided on the longest dimension of such parking space, the minimum dimensions of the said parking space shall be 2.5 metres by 6.7 metres.

(f) LOCATION OF PARKING AREAS

With the exception of the Commercial Zones, all required parking spaces shall be provided on the same lot occupied by the building, structure or use for which such parking spaces are required, and shall not form a part of any street or lane. Within the Commercial Zones, the required parking spaces may be supplied within 90 metres (288 ft.) of the main pedestrian access of the building, structure or use for which the parking spaces are required, provided a Site Plan Agreement is registered on title of the lands used for parking committing said parking spaces to the related commercial site.

(g) YARDS WHERE PERMITTED

Notwithstanding the yard and setback provisions of this By-Law to the contrary, uncovered surface parking areas shall be permitted in the required yards or in the area between the required road allowance and the required setback as follows:

Zone	Yard in Which Required Parking Area Permitted
Commercial, Institutional	All yards provided that no part of any parking area, other than a driveway, is located closer than 3 metres (9.8 ft.) to any street line, except in the C1 Zones or the RO Zones where parking shall not be permitted in the front yard.
Residential - single	(a) The side yard and rear yard, except for a side yard

dwelling, semi-detached, duplex, triplex, converted, quadruplex, street townhouse	immediately adjacent to a street, provided that no part of any parking area is located closer than one metre (3.3 ft.) to any street line; and (b) Driveways in the front yard or driveways in the side yard immediately adjacent to a street.
Multiple Residential Dwelling Townhouse	All yards provided that no multiple residential dwelling, part of any parking area, other than a driveway, is located closer than 6 metres (19.68 ft.) to any street line and no closer than one metre (3.3 ft.) to any side lot line.
Industrial	All yards provided that no part of any parking area, other than a driveway, is located closer than one metre (3.3 ft.) to any street line.

(h) PARKING STRUCTURES

Where a parking area located in a structure is accessory to a permitted use on a lot, then such structure shall conform to all the provisions for accessory uses set out in Subsection (1) of this Section.

(i) ACCESS TO PARKING AREAS AND SPACES

- (i) Access to parking areas shall be provided from an improved street by means of one or more unobstructed driveways at least 3 metres and not more than 6 metres in width for a driveway accessory to a single dwelling and not more than 10 metres in width for any other driveway, measured parallel to the said street, at any point on the lot closer to the said street than the street setback required therefrom. Provided further that no lot shall have more than 2 driveways for the first 30 metres of street line thereof plus 1 driveway for each additional 30 metres of street line. Notwithstanding the foregoing, in all residential zones, no lot shall have more than 1 driveway for the first 20 metres of street line thereof plus 1 driveway for each additional 30 metres of street line.
- (ii) Driveways and parking aisles shall have a minimum unobstructed width of 6 metres where two-way traffic is permitted and 2.8 metres where only one-way direction of traffic flow is permitted and is clearly indicated by signs, pavement markings or both, except that the minimum width required for any driveway accessory to a single dwelling shall be 2.5 metres.
- (iii) Each required parking space shall be readily accessible at all times for the parking or removal of a vehicle and vehicular access to any such parking space shall be not impeded by any obstruction except as provided in Paragraph (iv) of this Clause

except that this provision shall not apply to prevent the use as a parking space of any part of a driveway accessory to a single dwelling, provided that no parking space shall obstruct access to a parking area on any other lot.

- (iv) Nothing in this By-Law shall prevent the obstruction of a driveway by a gate, a well identified recognizable temporary barrier or similar obstruction used solely to restrict access to the said driveway and designed to be easily raised, swung aside or otherwise opened or removed when necessary to permit passage of a vehicle.
 - (v) The minimum angle of intersection between a driveway and a street line shall be 60 degrees.
 - (vi) Any driveways or parking aisles located within a required yard on a lot containing a mobile home park shall be separated from all interior lot lines or such lot by a planting strip not less than 1.5 metres in width.
 - (vii) The minimum distance between a point of intersection of street lines, such point of intersection being determined in the manner set out in Section 2(319) and Section 3(21) thereof, and a driveway providing access to a lot from an improved street, measured along the street line intersected by such driveway, shall be 8 metres.
 - (viii) Where a two-way driveway is divided into two one-way driveways by a curb, an area of landscaped open space or any other obstruction, such driveway shall, for the purpose of this Subsection, be considered a single driveway, albeit divided, provided that such driveway does not exceed 10 metres in total width, measured in accordance with Paragraph (i) of this Clause.
 - (ix) Nothing in this Subsection shall apply to prevent the use of a right-of-way as a means of obtaining access to a parking area, provided the said right-of-way has been specifically established for such purpose, or to prevent the establishment of abutting driveways or parking aisles along a common lot line, provided the combined width of any abutting driveways does not exceed 10 metres measured in accordance with Paragraph (i) of this Clause.
- (j) SURFACE AND DRAINAGE OF PARKING AREAS AND DRIVEWAYS
- (i) All parking areas and driveways shall be provided and maintained with a stable surface, treated so as to prevent the raising of dust or loose particles, using such surfacing materials as any asphalt, concrete or other hard-surfaced material. In the Industrial Zones, crushed stone or gravel may be used.
 - (ii) All parking areas and driveways shall be drained so as to prevent the pooling of surface water or the flow of surface water onto adjacent lots.

- (iii) The access point to parking areas shall be clearly defined by a curb of concrete or rolled asphalt.

(k) ADDITION TO EXISTING USE

Where a building or structure has insufficient parking spaces on the date of passing of this By-Law to conform to the requirements herein, this By-Law shall not be interpreted to require that the deficiency be made up prior to the construction of any addition or a change of use provided, however, that any additional parking spaces required by this By-Law for such addition or change of use are provided in accordance with all provisions thereof respecting parking spaces and parking areas.

(l) OTHER PARKING REGULATIONS

- (i) Nothing in this By-Law shall prevent the erection of a shelter for use solely by parking attendants or security personnel in any part of a parking area, except within a sight triangle, provided such shelter is not more than 4.5 metres in height and has a floor area of not more than 5 square metres.
- (ii) No gasoline retail outlet or automobile service station shall be located or maintained on any parking area except where specifically permitted by this By-Law.
- (iii) No trailer, motor home, or boat shall be stored in any part of a front yard, exterior side yard or a required interior side yard on a lot in a Residential Zone or in any part of a side yard on a lot in any zone other than a Residential Zone, except that this provision shall not apply to prevent the temporary parking of a trailer or boat on a permitted parking area. Temporary parking shall be restricted to seven consecutive days between May 1 and October 31. Parking of passenger vehicles shall be permitted in the front yard on that portion of the lot that is the driveway providing access to an attached or detached private garage or any approved unenclosed parking space within a side or rear yard.
- (iv) No commercial vehicle or motorized construction equipment shall be parked or stored on any part of a Residential Zone, except for commercial vehicles which:
 - 1. is owned or operated by the occupant of the said lot; or

 - 3. are parking or stored within a building or carport or within a yard other than a front yard, or exterior side yard, or a required interior side yard; or

4. except for the purpose of making deliveries or otherwise providing services, on a temporary basis, to a Residential lot.

(v) Motor vehicles and trailers lacking current valid license plates shall be parked or stored only within a private garage or other building, except that this provision shall not apply to a permitted vehicle sales or rental establishment or salvage yard.

(m) STACKING LANE SPACE REQUIREMENTS

(i) Where any of the uses permitted by this By-law have a drive-through facility, off-street stacking lane spaces leading to and from the drive-through facility must be provided. Further, the following uses are required to provide the following stacking lane spaces:

i. Automated Bank Machine located on the exterior of a building or free standing kiosk

3 before Automated Bank Machine

ii. Automobile Service Station
Automotive Sales and Service Establishment
Motor Vehicle Service and Repair

ii. A minimum inside turning radius for queue spaces forming a stacking lane is 3.5 m (11.48 ft). Queue spaces forming a waiting line must be unobstructed by parking spaces or loading spaces and must be clearly delineated by markings and barriers;

iii. Queue spaces forming a stacking lane or storage space from the service offered cannot form part of a parking aisle providing access to a parking space; and

- iv. Queue spaces shall not be located in a required yard abutting a Residential Zone.

19) REDUCTION OF LOT AREA

(a) PROHIBITION

No person shall reduce the lot area, or make any changes in the dimensions, of a lot by the conveyance or alienation of any portion thereof or otherwise, except by a conveyance in accordance with Clause (b) of this Subsection, so that any building or structure on such lot shall have a lot coverage that exceeds, or a front yard depth, side yard depth, rear yard depth, lot frontage, lot area or area of landscaped open space that is less than that permitted by this By-Law for the zone in which such lot is located.

(b) LOTS REDUCED BY PUBLIC ACQUISITION

Where the area of a lot is reduced by means of an acquisition of part of the lot by a public agency for the purpose of providing a public service, and where such acquisition causes the lot as reduced, or any building or structure existing lawfully on the lot on the date of such acquisition, to have a lot area, lot frontage, lot coverage, area of landscaped open space, setback, front yard depth, side yard depth or rear yard depth that does not conform to the requirements hereof for the zone in which such lot is located, then nothing in this By-Law shall apply to prevent the continued use of the lot as reduced as if no such acquisition had taken place, provided that:

- (i) no change is made in the dimensions, area or any other characteristics of the lot as reduced, subsequent to the date of such acquisition, that would increase the extent of the said nonconformity; and
- (ii) no building or structure or addition thereto is erected on the lot as reduced, subsequent to the date of such acquisition, except in accordance with all the provisions hereof for the zone in which such lot is located.

20) SETBACK/FRONT YARD EXEMPTION IN BUILT-UP AREAS

The minimum setback required on a lot that is between two adjacent lots on which are located existing buildings not more than 90 metres apart shall be the average of the established building lines on the said adjacent lots, provided that no setback requirement calculated in accordance

with this Clause shall exceed the applicable setbacks required of the appropriate zone provisions.

21) SIGHT TRIANGLES

(a) PROHIBITION OF OBSTRUCTIONS

Notwithstanding any other provisions hereof to the contrary, within any area defined herein as a sight triangle, no fence and no building or structure shall be erected, no vehicle shall be parked, no land shall be graded and no landscaping materials shall be permitted to grow above the height of 0.6 metres above the elevation of the centreline of the said street, in such manner as to impede or obstruct the vision of persons driving vehicles on an abutting street.

(b) EXTENT OF SIGHT TRIANGLES

For the purpose of calculating the extent of a sight triangle, the distance between the point of intersection of the two lot lines and their respective points of intersection with the line constituting the third side of the triangle shall be 6 metres; 23 metres where a street intersects a railway right-of-way at grade in an area with speed limits of 50 kilometres per hour or less; and 50 metres where a street intersects a railway right of way at grade in an area with speed limits greater than 50 kilometres per hour, or such greater distance as may be required from time to time by the Canadian Transportation Commission (see illustration).

(iii) No water circulating or treatment equipment such as pumps or filters shall be located closer than 3 metres to any lot line.

(iv) No part of any open swimming pool shall be greater than 2 metres in height above grade, exclusive of related structures which shall not exceed 5 metres in height.

(vi) Every open swimming pool shall be enclosed in accordance with the Corporation's By-Law governing the erection and maintenance of fences and gates around private outdoor open swimming pools.

(b) LOT COVERAGE EXEMPTION

Notwithstanding any other provisions of this By-Law to the contrary, no open swimming pools or any related structures shall be considered part of the lot coverage of a lot, but where a swimming pool is enclosed with a building or where a structure appurtenant to a swimming pool constitutes a building as defined herein, such building shall comply with any lot coverage requirements set out herein for the zone in which such building is located, but shall be exempt from the lot coverage requirements for accessory uses set out in Section 3(1) hereof.

(c) INDOOR SWIMMING POOLS
